About DEUTZ

Cologne-Porz

If you want to know what is behind the DEUTZ brand, there are people all over the world who can tell you. Wherever DEUTZ engines are in use, there is one thing our customers can be sure of: you can depend on a DEUTZ. No matter what the demands. No matter where in the world. The name DEUTZ has a firm place in the world of machine manufacturers and machine operators.

And has had for over 140 years.

DEUTZ positioning:

- independent manufacturer of **diesel engines**
- complete product range from 10 to 500 kW
- engines for all areas of application
- cooling systems: air, oil, and water
- engines tailor-made to customers' needs
- economy: life-cycle cost advantages
- service-orientated
- global reach with subsidiaries and strategic partners

History

DEUTZ is taking a look back at a proud time in history. It was 140 years ago that Nicolaus August Otto and Eugen Langen started "N.A. Otto & Cie.", the world's first engine factory - and the progenitor of today's DEUTZ AG. From a small workshop with a handful of employees in the old town of Cologne, there developed an enterprise with strong partners and a globally pre-eminent position in engine technology. Today, DEUTZ employs 5,500 people, and is represented in 130 countries on every continent. 140 years ago, Otto and Langen laid the foundation stone for the motorization of the world, and a freedom of movement without which our modern way of life would be inconceivable. The year 1864 marked the start of a long and dramatic history filled with milestones of significance not only for DEUTZ.
